IN MEMORIAM
TO
GEORGE B. ADDICKS, A.M., D.D.
Third President of Central Wesleyan College

After a lingering illness of some three years, with the setting of the sun on January 31, 1910, President Addicks entered into his eternal rest. On February 2, attended by a host of sorrowing friends, his remains were interred in the city cemetery, where lie Rev. Phillip Kuhl, first President of the school, Rev. H. A. Koch, D. D., second President, and Prof. Kessler, Ph. D., many years an enthusiastic teacher.

Dr. Addicks' record in connection with Central Wesleyan is as follows: A student from 1870 to 1874; a teacher in the Preparatory Department 1875-76; Professor of Practical and Historical Theology from 1890 to 1894; President from 1895 to 1910. During the intervening years he served as professor in the German College, Mt. Pleasant, Iowa, and as pastor of important charges in the St. Louis German Conference.

Dr. Addicks to a remarkable degree had both the respect and love of the young people under his charge. His rare sympathy and kindly nature made him the friend not only of the earnest and faithful, but also of the careless and wayward. All recognized in him their unfailing friend, who was ready at all times with counsel and help to the limit of his power.

His relations to his Colleagues in the Faculty were very cordial. He was well known and beloved throughout the church. He was a gentleman in the best sense of the term and had the esteem of his fellow citizens everywhere. The workmen pass on to other fields, but the Master and the work remain. "Behind the dim unknown standeth God within the shadow keeping watch above his own."

COMMITTEES AND OFFICERS

VISITING COMMITTEE.

ST. LOUIS GERMAN CONFERENCE—Rev. Theo Kies, Granger, Mo.; Rev. A. H. F. Hertzler, Springfield, Ill.

WEST GERMAN CONFERENCE—Rev. H. Paustian, Junction City, Kans.

NORTH GERMAN CONFERENCE—Rev. J. Berger, Fairfax, Minn.

OFFICERS OF THE BOARD OF TRUSTEES.

REV. F. MUNZ, President; DR. CHARLES OTT, Vice President; REV. D. W. SMITH, Secretary; REV. E. C. MAGARET, Recording Secretary; REV. H. ZIMMERMANN, Treasurer.

EXECUTIVE COMMITTEE OF THE BOARD OF TRUSTEES.

DR. CHARLES OTT, President; REV. H. ZIMMERMANN, REV. M. HERMANN, MR. THEO. REUTER, OTTO E. KRIEGE, Acting President, ex-officio.

FINANCIAL COMMITTEE.

OTTO E. KRIEGE, Acting President; PROF. H. VOSHOLL, PROF. E. WEIFFENBACH, REV. H. ZIMMERMANN, Treasurer.

BUILDING COMMITTEE.

REV. H. ZIMMERMANN, OTTO E. KRIEGE, Acting President; REV. D. W. SMITH, MR. C. J. JACOBY, PROF. JNO. H. FRICK, PROF. E. WEIFFENBACH.

FACULTY

* GEO. B. ADDICKS, A. M., D. D.
President and Niedringhaus Professor.

OTTO E. KRIEGE, A. M., D. D.
Acting President, Professor of Psychology and Ethics.

HENRY VOSHOLL, A. M.
Dean, Professor of English Language and Literature.

JOHN H. FRICK, A. M.
Professor of Mathematics and Astronomy.

ALBERT SAUER, A. M.
Professor of French.

JOHN M. RINKEL, A. M.
Emeritus-Professor of German Language and Literature.

CHARLES J. STUECKEMANN, A. M., D. D.
Schrader-Professor of Rhetoric and Sacred History.

CHARLES L. WELLEMAYER, A. B.
Professor of Latin and Greek.

ALBERT W. EBELING, B. S., M. D.
Professor of Natural Sciences.

EUGENE WEIFFENBACH, A. M., B. D.
Professor of Philosophy and Greek.

GOTTLIEB C. HOHN, A. B.
Kessler-Professor of German Language and Literature.

JOHN HELMERS, A. B.,
Professor of History.

L. L. BENEDICT, B. S.
Physical Director for Men and Assistant in Science.

LAURA L. HOLTZ
Physical Director for Women and Professor of Oratory.

FLORENCE M. STANLEY
Professor of Art.

ESTELLE EVERSMEYER, Ph. B.
Assistant in Mathematics.

ARTHUR A. HOECH,
Assistant in Sciences.

*On leave of absence since June 1909. Died Jan. 31, 1910.

FACULTY

F. A. NUNVAR

Director of the Conservatory of Music, Professor Instrumental Music.

MRS. F. A. NUNVAR

Professor of Vocal Music.

BERTHA SPITZE

Assistant in Piano.

EUGENE WEIFFENBACH

Military Commandant.

OSCAR H. WERNER, M. Accts.,

Bookkeeping and Commercial Law.

CHESTER HARMON AND MARJORIE PARKER

Shorthand and Typewriting.

OLIN J. HESSEL

Penmanship.

ANNA C. MARTIN

Assistant in Mathematics.

JOHN W. TWENTE

Assistant in English.

RUTH ZIMMERMANN

Preceptress.

Officers of the Faculty.

OTTO E. KRIEGE Acting President
H. VOSHOLL Dean and Secretary
H. ZIMMERMANN Superintendent and Treasurer

Standing Committees of the Faculty.

Alumni: Prof. Frick and Prof. Helmers.

Athletics: Prof. Weiffenbach and Prof. Benedict.

Censors: English, Prof. Vosholl; German, Prof. Hohn; Art, Miss Stanley.

Classification: Prof. Vosholl, Prof. Wellemeyer and Prof. Kriege.

Concerts: Prof. Hohn and Prof. Nunvar.

Degrees: Prof. Stueckemann and Prof. Wellemeyer.

Lectures: Prof. Frick and Prof. Ebeling.

Library: Prof. Vosholl, Prof. Stueckemann and Prof. Sauer.

Reading Room: Prof. Wellemeyer and Prof. Helmers.

Social Life: Rev. Zimmermann, Prof. Hohn and Miss Holtz.

"Star" Editors: Prof. Ebeling and Prof. Weiffenbach.

LECTURES AND CHAPEL TALKS

Lectures.

Bishop John L. Nuelsen, D. D., Omaha, Nebr. Baccalaureate Sermon.

Hon. Champ Clark, Member of Congress, "Thomas Jefferson."

Rev. F. Munz, D. D., Cincinnati, Ohio, "Francis Asbury."

Rev. W. F. Isler, Kansas City, Mo., "Switzerland."

Prof. C. M. Woodward, St. Louis, Mo., "Bridges."

Prof. T. Berry Smith, Fayette, Mo., "A Mission for the Microbe."

Rev. Carl Stiefel, D. D., St. Louis, Mo., "The Supreme Purpose of Life."

Rev. F. S. Eitelgeorge, Alton, Ill., "Fundamentals."

Rev. J. H. Bonsib, Indianapolis, Ind., "Prohibition."

Mr. Edward Card, St. Louis, Mo., "The St. Louis City Rescue Mission."

Rev. Thomas Nicholson, Secretary Board of Education, "Symmetrical Manhood."

Chapel Talks.

Prof. Benedict: "Physical Culture."

Dr. Ebeling: "Daniel the Model Collegian."

Prof. Frick: "Seeing Jesus," "Doniphan's Expedition to Mexico."

Prof. Helmers: "Doubling the Factors of Safety."

Prof. Hohn, "The Character of Napoleon," "What Shall I do With Jesus?"

Miss Holtz: "Relation of Expression to Life."

Rev. Eitelgeorge, "Building According to Plan."

Rev. Matthew Hermann, "The Outlook for C. W. C."

Rev. Bonsib, "Prohibition Chalk Talk."

Rev. Lemkau, Quincy, Ill., "Potent Forces."

Dr. Nicholson, New York, "Genuineness."

GENERAL INFORMATION

HISTORY.

Eighteen years after the scholarly William Nast had been appointed to preach among the Germans of Cincinnati, a group of German Methodist preachers in Illinois manifested their interest in education by establishing in the fall of 1854 an institution of learning in connection with a College in Quincy, Illinois.

For ten years this earliest High School of German Methodism rendered efficient service. Meanwhile the Civil War had imposed a new burden upon the church; that of caring for the many children, whose fathers had been slain on the battlefield. Fired with this lofty purpose and having the noble institutions of Francke in Halle in mind, the promoters of the Quincy institution decided to found the "Western Orphan Asylum and Educational Institute" in Warrenton, Mo., where a large estate had been secured for this purpose. This "Institute" was opened October 3, 1864. The charter was obtained in February 1865. The name of the corporation was legally changed in March 1870 to "Central Wesleyan College and Orphan Asylum." In 1884 the College and the Asylum were separated, and each institution has carried on its special work under its own Board of Trustees and in its own plant ever since. The present revised charter was granted October 30, 1908, and provides for the union of Central Wesleyan College and the German College of Mt. Pleasant, Iowa, which union was legally consummated in June 1909.

PURPOSE.

The object of Central Wesleyan College as set forth in the charter is "to educate the youth of the land in the arts and sciences, ancient and modern languages, theology and philosophy, and such other branches as are usually taught in the higher and highest institutions of learning." On this broad basis the school was established and has continued to the pres-

ent. The charter further stipulates that "the institution shall be open to students of either sex, possessing a good, moral character, without regard to their religious profession." It will thus be seen that while the school is denominational in the sense that nearly all the Trustees are members of the Methodist Episcopal Church, it is not sectarian in any sense of the term. It is the earnest purpose of Central Wesleyan College to give to young men and women the very best academic and collegiate training under positive Christian influences. It maintains that the ultimate aim of education is well grounded Christian character.

LOCATION.

Central Wesleyan College is located in Warrenton, the County Seat of Warren County, Missouri, a city of 1,400 inhabitants. It is on the main line of the Wabash railroad, 60 miles west of St. Louis and 217 miles east of Kansas City. For healthfulness and beauty of surroundings the location is unsurpassed. Situated on the dividing ridge between the Missouri and the Mississippi rivers at an elevation of 900 feet above the sea, the natural drainage is perfect.

During the past few years marked improvements have been made both in the business part of the city and in the residence districts. Beautiful homes, extensive lawns and abundant shade trees, five churches, good public schools and the exceptional advantages offered by a strong college make Warrenton an ideal place for residence.

The college campus of nearly 15 acres is midway between the Warrenton and Truesdale stations, a half mile from either. Delightful shade is furnished by native oaks, hickories and elms to which other beautiful and rare trees have been added from time to time. The buildings are conveniently situated with reference to each other on both sides of Main Street, the historic old "Boone's lick" Road. On the southern part of the campus are located the athletic field and the tennis courts.

BUILDINGS.

The buildings on the campus are seven in number all of brick and nearly all erected in recent years to displace earlier frame buildings and to meet the demands of the growing school.

The College Building, erected in 1874 is a well arranged three story building containing the college office, nine recitation rooms, the library, the reading room and four society halls.

Kessler Hall is a fine two story building erected in memory of Dr. J. L. Kessler in 1893. Here are located the chapel and the departments of music, art and oratory. The chapel is a beautiful hall on the first floor with a seating capacity of 350. It is used for daily chapel exercises, for concerts and for lectures. In the rear are to be found the studios of the teachers of music, and on the second floor nine practice rooms and the art room.

Gymnasium and Science Hall. This beautiful building, 64 by 84 feet in size, was opened in May 1909. In the basement are located the heating plant, the bath room, the scientific laboratories, the museum and a large lecture room. These rooms are well lighted and ventilated. The floors are cement. On the second floor there are four rooms in the corners set apart for the physical director, for an armory, and for dressing rooms. The great main floor is free for athletic work. The roof is supported by splendid steel trusses resting on steel columns. The running track and gallery, suspended from the trusses, encircles the room ten feet from the floor. The gymnasium is supplied with modern apparatus for physical culture and the hard maple floor is laid off for various indoor games.

Andrew Eisenmayer Hall. This is a large three story dormitory for men. It was erected in 1900 and was largely the gift of Mr. Andrew Eisenmayer of Trenton, Ill. It is equipped with electric light and steam heat. A suit of eight rooms on the first floor is occupied by one of the professors and his family. All the rooms in the building are large and airy and are neatly furnished. Sixty students can be accommodated.

The Ladies' Home is a beautiful three story building erected in 1893. At present it is being remodeled and its capacity increased by the erection of a large annex. When these improvements are completed, the entire basement floor, practically above ground, will be occupied by the kitchen and dining room with tables for 150 people. On the first floor will be located the rooms for the superintendent and family, the parlors and a number of students' rooms. These, with the present rooms in the second and third stories, will accommodate about fifty lady students. The entire building will be neatly furnished and equipped with modern conveniences. The new annex will furnish room for cold storage cellars, bakery, provision house, laundry, and a number of living rooms.

The College Church seating about 700 is used by the college for lectures, concerts and larger gatherings during the school year and especially during commencement week. It is equipped with a splendid \$2,500 pipe organ, which is used by the advanced organ pupils.

The Heating Plant located at the lowest point on the campus supplies all the buildings except the gymnasium and the church with steam heat.

The College Cottage, a frame building is occupied by the janitor and domestic servants. It can be converted into an emergency hospital on short notice, should an occasion arise for this change.

ENDOWMENT.

The expenses of the college are met in part by tuition fees which are very moderate, but chiefly by the income from the permanent endowment funds. Several chairs have been specifically provided for by generous friends of the institution and bear the name of the chief donors. Many other good men and women have contributed to the general endowment fund. The entire endowment amounting now to about \$150,000 is securely invested. The principal may never be diverted from the purpose for which it was intended. The interest may be used only for current expenses. The endowment fund should be increased to \$200,000 in the near future.

LABORATORIES AND MUSEUM.

The laboratories have been moved from their former limited quarters and are now installed in the Gymnasium and Science Hall.

The Biological Laboratory is equipped with compound and dissecting microscopes and the necessary reagents, apparatus, models and collections for biological instruction. There is a very valuable Botanical collection numbering 500 specimens all properly mounted and classified. For the study of Anatomy and Physiology the laboratory is supplied with models, skeletons, both articulated and disarticulated, and a well selected series of dry and alcoholic preparations for illustrating animal life.

The Chemical Laboratory is equipped with 40 student desk-lockers, supplied with water and all needed apparatus. Large hoods provide for the removal of noxious gases. A good supply of chemicals, glass ware and other apparatus is kept on hand constantly. Equipment is provided for general, analytical and organic chemistry. Adjoining the laboratory is the lecture room with graded seats.

The Geological Laboratory and Museum. The facilities for studying geology are excellent. Besides the government and state reports, reference texts and maps the museum, numbering 3000 specimens, is so arranged as to be easily accessible for study and class use. The very fine collections of fossils and minerals are especially valuable. The specimens are divided into three groups: the first group labeled according to Dana's Manual of Mineralogy; the second group labeled according to the United States Geological Series of Educational Rocks; the third group is the historical geological collection representing the various ages.

The Physical Laboratory. Thanks to the liberality of the friends of the school, the Physical Laboratory has recently been equipped with the necessary apparatus for the teaching of advanced as well as elementary physics. The Laboratory ad-

joins the lecture room and is supplied with work-tables for the students. Among the most important additions are the following: 6 Compound Microscopes, 12 Dissecting Microscopes, 2 Calorimeters, 3 D'Arsonal Galvanometers, 3 Voltmeters, 1 Ammeter, 6 Resistance Boxes, some apparatus for Light and Sound.

LIBRARY AND READING ROOM.

The Library occupies a large room on the first floor of the College Building. The number of the volumes in the Library aside from the government reports is 8,500. These are carefully classified and are catalogued in cards after the usual library methods. Thanks to the generous annual contribution of Dr. H. A. Geitz, the United States History alcove is especially well stocked. The leading reference works and current magazines are on hand. The library is in charge of one of the Professors and is open all day during the school year. Every effort is made to make the library of value to the students for collateral reading and for research work. During the year 500 volumes were added to the Library, partly by gifts from Bishop Nuelsen, Dr. Ott, Dr. Munz, and Dr. Geitz, partly by the union, with the German College, Mt. Pleasant, Ia.

The Reading Room is located on the second floor of the College Building. Besides an ample reference library the leading daily, weekly and monthly periodicals are kept on file. The incidental fee of \$2.00 a term entitles the student to the use of the Reading Room and Library as well as the Gymnasium.

PUBLICATIONS.

The Central Wesleyan Star is published monthly during the school year. It is the organ of the Faculty and the students. Its object is to give information in regard to the condition of the College in general and, in a measure, to represent the various departments. It also contains original articles on education by competent writers and serves as a medium through which the ex-students exchange views and keep up their friendly relation with one another and their alma mater. Subscription price: fifty cents per annum.

The Central Wesleyan Bulletin is published quarterly by the Faculty. One of these issues is the annual catalogue number. The other issues contain programs, announcements and official reports. Copies of the Bulletins will be sent free to any address.

The Annual. For several years the Senior Class has published a bound volume called the "Pulse." Price one dollar. This year the Annual will be published as the May number of the Central Wesleyan Star. It will be sent gratis to all who have paid the subscription price of the Star for the present year. Single copies of the present Annual, profusely illustrated, may be had for twenty-five cents.

GOVERNMENT AND DISCIPLINE.

Students are required to matriculate before they are entitled to the privileges of the school. Matriculation will be regarded as a pledge on the part of the students to comply with all the rules and regulations of the school.

Tuition for the term must be paid in advance. If a student is absent over two weeks at one time on account of sickness or for some other sufficient reason, proper reduction will be made on tuition. In no case, however, will the incidental fee be returned.

The government and discipline of the College are vested in the Faculty of the College. Discipline is in accordance with sound, moral and religious principles. Conduct inconsistent with the good order of the institution, if repeated after admonition, is followed by suspension, dismissal or expulsion.

In general, students are treated as self-respecting gentle men and ladies, and are held to the requirements and accorded the liberties of good society. It is the aim of the Faculty to develop in the student the principles of self-government. It requires good conduct and faithful work and relies upon the honor and moral sense of the student to secure these ends. No one will be permitted to remain in the school whose connection with it is injurious to others or unprofitable to himself.

The improprieties of deportment of which the faculty takes account include the following: Absence from recitation, chapel or from the city without excuse, and from church services more than once a Sabbath; absence from rooms at night or attendance at such entertainments as do not meet the approval of the Faculty; non-observance of study hours from 7:30 to 11:45 a. m., from 1:30 to 4:30 p. m., and from 7 to 9:30 p. m.; the use of ardent spirits; the use of tobacco on the College grounds or in the buildings; card-playing, theatre-going, gambling, rude or ungentlemanly or unladylike conduct in or about the College buildings, on the streets, or at boarding places; receiving instruction from any one outside of the College without special permission; violation of any oral rules of the faculty.

RELIGIOUS CULTURE.

Chapel exercises, consisting of Scripture reading, singing and prayer, are held daily, except Saturday and Sunday, in the College Chapel, which all students are required to attend.

Students are also required to attend public worship in one of the churches once on Sunday, as they or their parents or guardians may elect, and are encouraged to attend the Sunday School, the weekly meetings of the Epworth League, and the Young Men's and Young Women's Christian Association, of which a large number of our students are members. Every effort is made to surround the young people committed to the care of the College with wholesome religious influences. Many students are active leaders in the religious work in the various Churches and Sunday Schools of the city.

DEPOSIT OF MONEY.

Money can be deposited with the Treasurer for safe-keeping. Parents will do well to note this fact. For many reasons, it is unwise to give young persons away from home control of large sums of money. Parents should require their children to keep an accurate account of their expenses while at school.

COLLEGE ORGANIZATIONS.

Literary Societies. As well organized literary societies impart a special training in public speaking and in parliamentary practice, which may be of much advantage to the students, the College encourages the work of these societies in every way. Four societies, all in a flourishing condition are maintained.

The Goethenia Society is composed of young men of advanced collegiate standing. It is the oldest of the literary societies.

The Germania Verein is composed of young men, who are sufficiently advanced in German to use this medium in public addresses.

The Garfield Society offers special advantage to younger students. Either English or German may be used.

The Philomathia Society gives the lady students an opportunity to gain literary and parliamentary skill.

The Oratorical Associations. Of these there are two, one English, the other German. All Collegiate students, who have been in attendance at College for one year, are members. The oratorical contests, which are held annually, offer opportunity for and incentive to special efforts in oratory.

Young Men's Christian Association. This Association in the College is well organized, and does a most useful work. A large per cent of the students are actively connected with the Association, and are zealous to forward its work. Its contribution to the safety of young men removed for the first time from the restraints of home life can hardly be overestimated. It furnishes a point about which the religious life may center.

Young Women's Christian Association. This association organized in 1903 is a great stimulus to the religious life of the young women of the College and of the city. Meetings are held each Tuesday evening in Philomathia Hall.

The Epworth Leagues of the city are composed largely of students and are important factors in their religious development.

SCHOLARSHIPS AND PRIZES.

The **Brown Memorial Scholarship** was established by Mrs. Addison H. Brown formerly of Pacific, Mo., now of Warrenton, in memory of her deceased husband. The interest on the principal of \$5,000 is used for the education of one or more worthy students in Central Wesleyan College. Awarded to Miss Alice Richmond of Old Orchard, Mo., in 1909-10.

The Ammann Fund. By the bequest of Mrs. Ammann of Decatur, Ill., a fund of \$15,000 will soon be available for the assistance of needy and worthy students, who are preparing for the ministry.

No awards could be made during the present year.

The Hollman and the Niedringhaus Stipends, amounting to \$125.00 a year, are awarded annually by the Faculty to needy students, who rank high in scholarship.

Oratorical Prizes. Through the kindness of Mrs. M. E. Kriege of Denver, Colo., and another friend of the school four prizes are offered annually for the best orations in English and German, two of fifteen dollars each and two of ten dollars each.

First prizes were awarded in 1910 to Milton H. Matthaei and Oscar H. Werner. Second prizes to Paul H. Beck and Oscar Zeidler.

High School Scholarships amounting to \$36.00 are awarded to one graduate of a first class high school, who ranks high in moral character and scholarship, said award to cover the tuition for the Freshman year. Applicant must send testimonial of character and a statement of rank in scholarship, certified by the proper officer, to the President of Central Wesleyan College.

Academic Scholarships covering the tuition for the first term of the school year in the Academy of Central Wesleyan College are awarded annually to all the graduates of the rural public schools of Warren County.

SELF SUPPORT AND LOANS.

Each year a number of students work their way through college, wholly or in part. If this work does not encroach too

much upon the student's time for study and recreation, it is a very commendable ambition. The Faculty assigns a number of places on the domestic force to worthy and needy applicants. These places yield an income of from twenty-five to fifty dollars. Profitable employment may also be found about the premises of professors and citizens of Warrenton.

Loans from the Board of Education of the Methodist Episcopal Church may be had on certain conditions. The loans bear no interest while the student is in College, but the principal must be repaid with interest after the student enters upon his vocation.

COLLEGE BOOK STORE.

A book store is maintained at the College for the convenience of students. It is in charge of a student appointed by the Faculty. All text books used in the classes, as well as stationery, pennants, etc., are kept in stock.

BOARD AND ROOMS.

The College is in possession of large, commodious buildings, containing private rooms for pupils, and hence a large number of students can have their rooms and get their meals at the institution, and so be entirely under the supervision of the school. The Boarding Department and rooms for students are in close proximity to the College, requiring little or no exposure in winter, and surrounded by pleasant grounds and beautiful shade trees, making it delightful in warm weather. Each room is supplied with the necessary furniture. The rooms are heated by steam and lighted by electricity.

As it is impossible to accommodate all the students in the College Dormitories, they will be permitted to board and room with private families in the city, who pledge themselves to observe the rules of the College. A list of such appropriate boarding places will be posted on the Bulletin Board. Students boarding in private homes are under the same rules as those living in the Dormitories. Lady and gentlemen students are not permitted to occupy rooms in the same home.

All contemplated changes of boarding places by students rooming in the Ladies' Home, Eisenmayer Hall, or elsewhere, must be reported to the president one week before the change is to be made, and must meet with his approval. Students having engaged a room are expected to keep it for at least a term.

Eisenmayer Hall has accommodations for about sixty men. Application for rooms should be made in June or as early as possible. Students now occupying rooms in the Dormitories may retain them for the following year by making a deposit of two dollars, which will be applied on the board. Rooms not thus reserved can not be held, should there be other applicants for them. Board will be charged from the beginning of occupancy to the close of the term and must be paid for at the beginning of the term. Students must take the rooms assigned to them. Change of room in the same building may take place at any time by consent or on request of the Superintendent. Students may room alone by paying an additional price. Each student should bring with him two sheets, two pillow cases, two towels and a pillow. Students should bring rugs, pictures, pillows and pennants with them and make their dens look home-like. The charges for board and room in Eisenmayer Hall will be \$29.25 for a term of nine weeks.

The Ladies' Home, which has been remodeled and enlarged this year will accommodate about fifty lady students. The home is beautifully situated, neatly furnished and equipped with modern conveniences. The ladies are under the special care of a Preceptress and the Superintendent's family. Students furnish their own sheets, pillow cases, blankets, spreads, towels, napkins and napkin rings, all of which should be plainly marked. A spoon and glass for use in the room and adornments which will make the room home-like are very desirable. A girl's wardrobe should be simple and serviceable, and should include mackintosh, rubbers and umbrella. As little dressmaking, dentistry, etc., as possible should be left to be done while at school. Application for rooms should be made in June or as soon thereafter as

possible. The charge for board and room in the Ladies' Home is \$ 31.50 per term of nine weeks.

For further information regarding board and lodging address Rev. H. Zimmermann, Superintendent, Warrenton, Mo.

TUITION AND FEES.

A. Incidentals, per term—For all Students.....	\$ 2.00
B. In Courses—Preparatory, Normal and Academic Courses,	
per term	7.00
College Courses, per term.....	9.00
Commercial Course (\$40.00 per year), per term.....	12.00
Shorthand and Typewriting (\$35.00 per course), per term	10.00
Typewriting, one hour a day for students not taking.	
Shorthand, \$2.00 per term; two hours a day.....	3.00
C. Music—Instruction in Music (Piano, Organ, Violin, Vocal),	
One lesson per week, in class, \$5.00; private, (half hour.)	\$9.00
Harmony, first year, \$2.00; second year.....	3.00
Canon and Fugue.....	5.00
Use of Instrument, one hour a day, per term.....	2.50

Board (Furnished Rooms, in Gentlemen's Dormitory, two	
in a room, Light and Fuel included), by the term	
per student	\$29.25
Board (Furnished Rooms in Ladies' Home, two in a room,	
Light and Fuel included), per term	\$31.50

GENERAL COUNSEL.

Arrange your plans to enter College September 13, the beginning of the school year, and endeavor to stay to the end of the year. Come with the determination of giving yourself wholly to study. Be careful in the choice of your companions. Avoid extravagance of every kind. Be determined to win the respect of teachers and fellow-students by studious habits and respectful conduct.

As the College Campus is midway between the Warrenton and Truesdale Stations students may get off at either station, though conveyances are not generally at hand in Truesdale. Members of the Y. M. C. A. reception committee will meet all trains during the opening days of school to greet new students and to look after their welfare. At Warrenton take the bus or walk two blocks south and four blocks east to the College grounds. At Truesdale walk west about four blocks. The first door to the right as you enter the College Building leads to the President's office. The Superintendent may be found in the Ladies' Home on the opposite side of the street. In either office new students will receive immediate attention.

DEPARTMENTS.

The work of Central Wesleyan College is carried on in various Departments or Schools, each of which will be described in detail on succeeding pages and in the following order; The College of Liberal Arts, The Academy, The Normal School and Summer School, The School of Business, The Conservatory of Music, Art and Oratory, Physical Culture, The German Theological Seminary.

Any further information in regard to the College or any of its departments will be cheerfully given. Address.

OTTO E. KRIEGE, Acting President.

COLLEGE OF LIBERAL ARTS

FACULTY.

Otto E. Kriege, Acting President, Professor of Psychology and Ethics.
Henry Vosholl, Dean, Professor of English.
John H. Frick, Professor of Mathematics and Astronomy.
Albert Sauer, Professor of French.
Charles J. Stueckemann, Professor of Rhetoric and Sacred History.
Charles L. Wellemeyer, Professor of Latin and Greek.
Albert W. Ebeling, Professor of Chemistry and Physics.
Eugene Weiffenbach, Professor of Philosophy
Gottlieb C. Hohn, Professor of German.
John Helmers, Professor of History.
Laura L. Holtz, Professor of Oratory.

ADMISSION.

Candidates for admission to the College of Liberal Arts must be at least sixteen years of age and must present testimonials of good moral character, and, if from other colleges, evidences of honorable dismissal. They must also present certificates of scholarship from the institution which they last attended, showing in detail the studies pursued in preparation for college. This certificate must contain particular statements as to the text books used in preparation and the exact amount of work done in each study, as explicitly specified in the blank forms furnished by the College.

It is very important that students register promptly on the opening day of the collegiate year and be in attendance at the first recitations. All classification is tentative. Full standing will not be given until the student has shown that he can pursue college studies with success.

ENTRANCE REQUIREMENTS.

For entrance to the Freshman Class sixteen units are required. The unit is a course of study prescribed for one school year of at least 35 weeks, requiring four or five forty-five minute recitation periods per week. Of these sixteen units, thirteen are prescribed and three are optional, as follows:

Prescribed 13 units—

1. English, Higher Grammar, Rhetoric, Literature, 3 units .
2. Mathematics, Algebra, through quadratics, Plane and Solid Geometry and advanced Algebra, 3 units.
3. Latin, 3 units.
4. French, German or Greek, 2 units.
5. History (Ancient) 1 unit.
6. Science, Physics, 1 unit.

Optional, 3 units, to be offered from this list—

1. Latin, fourth year, 1 unit. (Candidates for the classical course must present four units in Latin).
2. Science (Zoology and Botany, or Physiography and Physiology,) 1 unit.
3. History (English or American), 1 unit.
4. Economics and Civics, 1 unit.
5. History of Education and Pedagogy, 1 unit.

A student presenting thirteen units may rank as a conditioned Freshman. These conditions must be removed within a year.

Graduates from the Academy of Central Wesleyan College are admitted without question to the Freshman class. Graduates from other schools of good standing will be admitted provided they have done similar and equivalent work.

Candidates for advanced standing beyond the Freshman class must give evidence of their fitness for advanced work either by examination or by credentials from another institution of good standing.

CLASSIFICATION AND GRADUATION.

Students who present at least thirteen entrance units are ranked as Freshmen. Those who have completed thirty-two semester hours and removed all entrance conditions are ranked as Sophomores; those who have completed sixty-four semester hours are Juniors; those who have completed ninety-six semester hours are Seniors. The completion of one-hundred and twenty-eight semester hours entitles the student to graduation.

A semester hour or credit is one sixty minute period of prepared work, per week for eighteen weeks. Two laboratory hours are the equivalent of one lecture or recitation period.

The maximum of work allowed a student except by special permission of the Faculty, is thirty-two semester hours a year; the minimum, except in the Senior year is twenty-six, semester hours.

As a rule a course of study cannot be completed in less than four years, sometimes an additional year will be needed. The ambitious attempt to complete the course in less than four years usually results in impaired health and a lower grade of work than the student is capable of doing if the course is taken as planned. While no artificial obstacle will be opposed to the more rapid progress of gifted and industrious students, it will be insisted that regard be paid to health and to thoroughness of preparation.

COURSE REQUIREMENTS.

On succeeding pages the prescribed and the elective studies in the various courses are given in tabular form and explained in detail. Each of these courses gives emphasis to a special line of work. Course I emphasizes the Classics; Course II, the Modern Languages; Course III, Philosophy. These three lead to the degree of Bachelor of Arts. Course IV. emphasizes the Natural Sciences and Mathematics and leads to the degree of Bachelor of Science.

It is desired that the student, having elected one of these courses adhere to it throughout his College career. Changes can be made only with the consent of the Committee on classification. Change of studies will be permitted only during the first two weeks of a semester.

In the appended tables, the figures enclosed in parentheses indicate the number of semester hours' credit that will attend the successful completion of the course indicated. They correspond strictly to the aggregate number of hours spent in recitation per week in one or two semesters during which courses are in progress. The Roman numerals and the unenclosed Arabic figures refer to the special course under the Detailed Statement.

COLLEGIATE COURSES IN DETAIL

The following statements, prepared by the instructors, show the scope and extent of the instruction given, and to some extent the methods pursued.

I. BIBLICAL LITERATURE.

Professor Stueckemann and Professor Weiffenbach.

1. Introduction to the Bible. First semester, 2 hours.
2. History of the Jews to the Christian era. First semester, 3 hours. The Life of Christ and the history of the Apostolic Church. Second semester, 3 hours.
3. Evidences of Christianity and Theism. Second semester, 2 hours.
4. Hebrew—Hebrew Grammar, exercises in writing Hebrew; translating parts of Genesis, Kings, and the book of Ruth complete. One year, 10 hours.
5. Hebrew Advanced—Translating selected Psalms, Amos and the Servant Jahveh passages of Isaiah with exegetical notes. One year, 6 hours.
6. New Testament Greek—A thorough knowledge of the Greek New Testament is the aim. Elementary and advanced grammars are used, meeting the needs of the students. Special attention is given to the grammatical and lexical peculiarities of the New Testament Greek. The first semester is devoted to the study of the Gospel of St. Luke. The second to the more important Pauline Epistles. One year, 6 hours.
7. Advanced New Testament Greek.—Quantity reading of the New Testament. Rapid and accurate translation with exegetical notes. Only for advanced students. One year, 4 hours.
8. Seminar for the special study of the Pauline Terminology will be arranged, if called for. Open only to those who have taken 6 and 7. One year, 2 hours.
9. A Study of Missions—The best methods of introducing Christianity; the effects upon the life and conduct of the heathen individually; the Christian religion, the forerunner of civilization. Second Semester, 2 hours.

II. ENGLISH.

Prof. Vosholl and Miss Holtz.

The College Courses in English are open to those who have completed three years of Academic English.

1. Rhetoric.—A rapid survey of the elements of style; diction, figures, and sentence and paragraph structure. This is followed by a

detailed study of the technique of the forms of discourse; narration, description, exposition and argumentation. About half the time is given to careful study and analysis of prose models. All the work is accompanied with the constant application of theory and principles in the writing of themes. One year, 6 hours.

2. Literature—A general view of the development of English literature with reference to contemporary history. Careful reading and study of representative authors. The Eighteenth and Nineteenth Century authors will receive special attention. Manly's English Poetry will be the basis for a large part of the work. One year, 10 hours.

3. Oratory—The first term takes up a study of pronunciation, vocal purity and naturalness. Exercises in correct breathing, control of the organs of speech, placing the voice and purity of tone are given. During the second term vocal energy, orations, emphasis and extemporaneous speaking are studied. Text Cumnock's Choice Readings. First semester, 2 hours.

4. Oratory Advanced.—This course is arranged for those who wish to give special study to the art of public speaking as followed by ministers, lecturers and readers. The work includes the study of the psychology of public speaking and the study of master orations. Special stress is laid on voice technique, bodily expression and argumentation. Second semester, 2 hours.

III. FRENCH LANGUAGE AND LITERATURE.

Professor Sauer.

The foundation for the course in French is laid in a thorough study of the grammar. Beyond this, the aim is to acquaint the student with the best literature of France. Composition, both as translation and original work, is continued during the entire course. Especial attention is paid to the conversational language.

1. Elementary Grammar.—Easy readings from modern colloquial French, about 200 pages. Practice in speaking and writing French. One year, 8 hours.

2. Readings from the more difficult modern French authors, about 500 pages. The chief aim of the course is to enable the students to acquire a vocabulary of the words and phrases in use in every day life. Composition and review of syntax. One year, 6 hours.

3. An advanced course in reading and composition. One year, 4 hours.

IV. GERMAN.

Professor Hohn.

1. The essentials of German Grammar—Readings in easy narrative prose, composition and conversation based on the texts used.

Texts—Collar's First Year German, Guerber's "Märchen und Erzählungen," Mueller and Wenckebach's "Glück Auf." One year, 10 hours.

2. Grammar study continued—Joynes and Wesselhoeft's German Grammar used. Reading of easy German stories, such as: Storm's "Immensee"; Wildenbruch's "Das Edle Blut"; Hilleru's "Höher als die Kirche," Rosegger's "Waldheimat." Conversation and composition based on readers and grammar text. The chief aim of this course is to acquire vital and fruitful appreciation of German literature of medium difficulty. One year, 10 hours.

3. A course for students who read and speak German with considerable ease. A drill on the rudiments of grammar is extended through the whole year together with a study of German lyric poetry of the Eighteenth and Nineteenth Century. Composition partly original, partly based on the texts used. Texts are: Lyon's "Handbuch der Deutschen Sprache," Wesselhoeft's "German Composition," Hatfield's "Lyrics and Ballads," Göthe's "Hermann und Dorothea." One year 6 hours.

4. A more scientific study of German syntax followed by the classical drama; characteristic dramas of Lessing, Göthe, Schiller, Kleist and Grillparzer are read. The life of these poets is studied from English and German biographies and some of their other works, besides those read in class, are read and reviewed. One year, 6 hours.

5. (a) Rhetoric and Composition, Logic. (b) A critical study of the modern drama. Works by Sudermann, Hauptmann, Lienhard, Ernst and Wildenbruch are taken up. One year, four hours.

6. (a) Essentials of phonetics and historical grammar. This course furnishes those who intend to teach a scientific basis for work in pronunciation and grammar. (b) History of Germany and German literature. Text: Klee's "Grundzüge der deutschen Literaturgeschichte," Heyse's "Deutsche Grammatik," Biedermann's "Deutsche Volks- und Kulturgeschichte." One year, 6 hours.

V. GREEK LANGUAGE AND LITERATURE.

Professor Wellemeyer.

Students taking the classical course should present at least one year of Greek as an entrance requirement.

1. Greek I. Grammar and exercises—The Story of Cyrus. One year, 5 hours.

2. Xenophon, Anabasis I-IV. Review of Grammar. First semester, 4 hours.

Homer, Iliad I-IV. Oral reading, scansion of hexameter verse, studies in word formation, mythology, etc. Second semester, 4 hours.

3. Plato. Select minor dialogues. First semester, 3 hours.

Greek, Drama, select plays of Euripides, Sophocles or Aeschylus; Oral reading and scansion of Iambic Trimeter. Second semester, 3 hours.

4. Greek Comedy. Select plays of Aristophanes, or selections from Greek lyric poets. First semester, 2 hours.

Homer, Iliad or Odyssey, a rapid reading course. Second semester, 2 hours.

VI. HISTORY.

Professor Vosholl and Professor Helmers.

1. Mediaeval and Modern History—Transition from ancient to mediaeval world, the barbarian movements and kingdoms, growth of Christian church, the feudal system, the Renaissance, exploration, and discovery, the Reformation, the French Revolution, the evolution of modern constitutional governments. One year, 8 hours.

2. English History—The main facts that have contributed to the growth of the English nation; the development of its government and institutional liberty. First semester, 4 hours.

3. United States Political History—Formation of the Union, growth of parties, westward expansion, slavery, financial and industrial legislation, our relation to foreign nations. Channing's student's History is used as text book. Second semester, 3 hours.

VII. LATIN LANGUAGE AND LITERATURE.

Professor Wellemeyer.

Students must present four years of Latin as preliminary requirements for entrance to Freshman Latin.

1. Livy, selections from books XXI and XXII; Horace, Odes, with drills in oral reading and lyric meters. First semester, 3 hours.

Horace, Odes, completed. Roman literature. Cicero, Popular essay or selections of letters. Second semester, 3 hours.

2. Tacitus, Agricola and Germania or Dialogus. First semester, 2 hours.

Latin Comedy, select plays of Plautus or Terrence. Second semester, 2 hours.

3. Roman Satire, Horace and Juvenal. First semester, 2 hours, Epistolary Latin, Cicero and Pliny, Roman private life. Second semester, 2 hours. (This course may be substituted for course 2.)

VIII. MATHEMATICS AND ASTRONOMY.

Professor Frick.

1. College Algebra—This course is pursued in connection with a stiff text, and includes such topics as the binomial theorem, logarithms,

graphs, choice complex numbers and the theory of equation. One year, 8 hours.

2. Trigonometry—The general formulas, practical applications of the solution of triangles, the theory of logarithms and trigonometric equations. First semester, 4 hours.

3. Surveying—A course in plane surveying especially suited for civil engineers comprising the use and adjustment of instruments, leveling, stadia work, triangulation, contour and profile mapping. Second semester, 4 hours.

4. Analytic Geometry—Including the straight line, circle, ellipse, hyperbola, plane loci, loci in space, and transformation of co-ordinates. First semester, 4 hours.

5. Calculus, Differential and Integral—Differentiation, expansion of functions, higher plane curves, maxima and minima, integration, areas and volumes. Second semester, 4 hours.

6. Astronomy is studied during the second semester. Besides the class room work a six-foot reflecting telescope with a five-inch objective is used for the study of sun and moon, comets, stars and star clusters. Second semester, 5 hours.

IX. NATURAL SCIENCES.

Professor Ebeling and Prof. Frick.

One year's work is required in Elementary Physics for entrance to the Freshmen year. Physiography and Physiology are suggested where an additional unit in Natural Science is required.

1. Zoology.—This course covers the principal facts of animal structure, development, and classification. They are illustrated by museum specimens and wall charts, in addition to the detailed laboratory study of typical representatives of the main branches of the animal kingdom. Three recitations and two laboratory exercises each week. First semester, 5 hours.

2. Botany.—During the early part of the course, laboratory practice is devoted to the study of seeds, their germination, and the drawing of plant structure. The latter part of the course is devoted to the analysis of flowers, and collection, classification and preservation of plants. The college herbarium is freely used. Second semester, 5 hours.

3. Physiology.—An advanced text like Martin's Human Body is used. The general subject of Physiology is covered in a course of recitations and demonstrations. First semester, 4 hours.

4. Physics.—This course comprises a study of mechanics, molecular physics, heat, sound, light, and magnetism and electricity, laying special stress upon laws and measurements. Two recitation periods and

two hours of laboratory work per week throughout the Junior year.
6 hours.

5. General Chemistry.—In this course the aim is to give the student a thorough knowledge of general chemistry, its principles, the elements and their chief properties, the atomic and the ionic theory. Three recitation periods and two laboratory periods, the latter of two hours each during the Sophomore year. 10 hours.

6. a. Qualitative Chemistry.—The course in general chemistry is prerequisite to this course. The work is chiefly laboratory work but recitations will be held when necessary. The reactions of bases and acids and the systematic analysis of substances will be studied.

b. Quantitative Analysis—A course in the principles of quantitative analysis consisting of practice in gravimetric analysis of simple substances.

Both courses elective for those who have had course 5. One year,
6 hours.

7. Geology is studied in the first half of the Senior year. Laboratory practice consists in field work and study and determination of fossils and minerals in which our museum collections of minerals and fossils are freely used. First semester, 5 hours.

LABORATORY FEES.

Chemistry,	\$5.00 per semester.
Physics,	\$2.50 per semester.
Zoology,	\$1.00 per semester.
Botany	\$1.00 per semester.

X. PHILOSOPHY.

Professor Kriege and Professor Weiffenbach.

1. Psychology—Nervous structure and its functionary and genetic phases in the development of consciousness. Demonstration by apparatus and methods of experimental Psychology. Angell's Psychology serves as a guide. Judd's and Wilmer's Manuals are used in the work in experimental Psychology. First semester, 5 hours.

2. Ethics—Fundamental concepts and principles. Good and bad. The highest good. Conscience, Morality, Religion. Practical Ethics or the doctrine of Virtues and Vices in general. This is followed by a brief course in Theism. Second semester, 5 hours.

3. Introduction to Philosophy. This study introduces the student to the consideration of the fundamental problems of Philosophy; giving briefly their historic development and dwelling especially upon the attempts to solve them. The aim is not to develop idle and spec-

ulative reasoning, but rather to direct the truth seeker to a proposed solution by the way of logical and practical thought and a tolerant attitude toward all schools. First semester, 5 hours.

4. History of Philosophy.—In this course the student follows the efforts of the great thinkers to solve the problems of the universe from the beginning of Greek Philosophy to modern times. Especial attention is given to the moral philosophy of Socrates, the idealism of Plato and the philosophy of the Golden Mean of Aristotle. Considerable time is devoted to Scholasticism, Bacon, Descartes, Spinoza, the English common sense Philosophers, the German Idealists and James' Pragmatism. This course closes with the Study of Christian Evidences. The aim of courses 3 and 4 is to develop a sober, intelligent, moral, and religious worldview which will be in harmony with man's whole and best nature. Second semester, 5 hours.

XI. RHETORICAL WORK.

1. Each member of the Senior Class will be required to prepare an oration of about one thousand words on an assigned subject the third term of the school year, to be delivered before the school in connection with the morning chapel exercises. One hour.

2. Juniors are required to write one thesis each the first and second semesters, of about eight hundred words, on assigned subjects to be read in connection with the morning chapel exercises. One hour.

3. Sophomores are required to deliver a declamation or read an essay of six hundred words the second and third terms before the school in connection with the morning chapel exercises. Freshmen who belong to a literary society are excused from rhetoricals. One hour.

XII. SOCIAL AND POLITICAL SCIENCE.

Professor Weiffenbach and Professor Vosholl.

1. Economics.—A course which considers the principles of production, distribution, money, banking, and international trade. The labor movement, monopolies, trusts and the railroad problem are treated in full. An advanced text book is used. First semester, 3 hours.

2. International Law. This course is designed to give the student a general knowledge of the fundamental legal principles, which govern international relations. A special study is made of States and their essential attributes, perfect and imperfect rights, private and international law, the conflict of international rights: the adjustment of Disputes, Mediations, Arbitration, War, America's place in the Peace Movement and the Peace Conferences at the Hague. Second semester, 3 hours.

3. Sociology.—The aim of this course is primarily to present to the student the highest social ideals, especially the American social ideals. A systematic study is made of the origin, growth, structure and activities as well as of the problem, aim and purpose of society.—The Social Teachings of Jesus in relation to the pathology of society are presented by lectures. A critical study is made of the theories advanced by Socialism for the solution of the complex problems of our day. Second semester, 3 hours.

4. An advanced course in the different schools of Socialism will be offered to students who have had courses 1, 2, and 3. Second semester, 2 hours.

XIII. ART, MUSIC, ORATORY, PHYSICAL CULTURE, PROFESSIONAL.

1. Art. Work in drawing and painting may be credited toward college graduation on the recommendation of the principal of the Art Department. The maximum credit given is 4 hours. Mechanical drawing is required in Normal Course and in the Sophomore year of the Scientific Course. Two hours a week throughout the year. Credit 2 hours.

2. Music. Students who take harmony and theory, in connection with advanced instrumental or vocal work in the Conservatory of Music may be allowed college credit on the recommendation of the Director to the extent of 12 hours.

3. Oratory. Private advanced work in Oratory beyond the course outlined in II, 3, and 4 will be credited to the extent of 4 hours, subject to the approval of the principal of the department.

4. Physical Education. Two years' work in Physical training is required for graduation. Up to and including the Freshmen year students will be enrolled in course one. The second course may be taken at any time before graduation. Each course, 2 hours a week from October to April. The maximum credit will be four hours.

5. Professional Studies. Students in Theology may substitute professional studies not to exceed one quarter of the minimum of hours required for the bachelor's degree.

THE MASTER'S DEGREE.

✓ The degree of Master of Arts is conferred upon Bachelors of Arts of Central Wesleyan College who have spent a year in residence at the college pursuing a systematic course of liberal, non-professional studies in any department maintained by the College of Liberal Arts, subject to the approval of the Faculty. This course shall exhibit not

less than 32 semester hours of which 20 hours shall be devoted to the major subject and the remaining to the correlated minors.

Graduates of other reputable colleges are eligible on the same terms as Bachelors of Central Wesleyan College.

The Master's Degree will also be conferred upon those Bachelors of Central Wesleyan College who shall exhibit satisfactory evidence that they have completed such a course in residence at any other reputable College or University, either in course or in connection with professional work or study, or who have pursued such a course in absentia by correspondence with this College or other reputable College or University, subject to the approval of the Faculty, during a period of three years following their graduation.

The requirements for the degree of Master of Science are the same as for the degree of Master of Arts.

Applicants for the Master's Degree must present their request before May 1, and pay the usual fee for a degree.

THE ACADEMY

FACULTY.

Otto. E. Kriege,	Acting President.
Henry Vosholl,	Dean, Professor of English.
John H. Frick,	Professor of Mathematics.
Charles J. Stueckemann,	Professor of Rhetoric
Charles L. Wellemeyer,	Professor of Latin.
Albert W. Ebeling	Professor of Natural Sciences.
Gottlieb C. Hohn,	Professor of German.
John Helmers,	Professor of History
Laura L. Holtz,	Professor of English.
Estelle Eversmeyer,	Assistant in Mathematics.
L. L. Benedict,	Professor of Physics.
Arthur L. Hoech.....	Assistant in Science.

GENERAL STATEMENT.

Central Wesleyan College maintains an Academic Department for the purpose of preparing students for College and of furnishing such instruction as may be desired to those who do not contemplate a College Course. The Academy is under the direction of a Principal and all instruction is under the supervision of the heads of College Departments. Students of the Academy are under the same rules as college students and the general equipment of the college so far as needed, is at their disposal. On account of its connection with the College, the Academy is pervaded by high ideals of character and of scholarship, and younger students are stimulated in their work by contact with the men of the College classes.

ADMISSION.

Students are admitted to the Academy by certificates from public schools or Academies. Advanced standing will be given to those, who are properly qualified. For students, who desire to review the common branches and for others, whose school advantages have been meager there are classes in Arithmetic, Geography, Grammar, United States History. These Preparatory studies are carried on at all times.

COURSE OF STUDY.

The Academy course extends through four years and is equal to a good High School course. Sixteen units are offered, of which thirteen are prescribed and three are elective. Students intending to pursue the classical course in College must offer four years of Latin. Students who select the scientific course must offer an additional year of science.

ACADEMY COURSE IN TABULAR FORM.

FIRST YEAR.

First Semester	Hours	Second Semester	Hours
English, Higher Grammar	5	English, Higher Grammar	5
History, Ancient	5	History, Ancient	5
Latin, First Year	5	Latin, First Year	5
Mathematics, Algebra,	5	Mathematics, Algebra	5

SECOND YEAR.

First Semester	Hours	Second Semester	Hours
English, Rhetoric	5	English Rhetoric	5
Latin, Caesar	5	Latin, Caesar	5
Mathematics, Plane Geometry	5	Mathematics, Plane Geometry	5
Elective*	5	Elective	5

THIRD YEAR.

First Semester	Hours	Second Semester	Hours
English Literature	5	English Literature	5
Language, French, German or Greek	5	Language, French, German or Greek	5
Latin, Cicero	5	Latin, Cicero	5
Mathematics, Solid Geometry and Algebra	5	Mathematics, Solid Geometry and Algebra	5

FOURTH YEAR.

First Semester	Hours	Second Semester	Hours
Language, French, German or Greek	5	Language, French, German or Greek	5
Science, Physics	5	Science	5
Electives*	10	Electives	10

*As electives for the second year are suggested Mediaeval and Modern History; Physiography and Physiology, or Civics and Pedagogy. Fourth year electives must include Latin for those who mean to take the classical course in College. Other electives are Zoology and Botany, each 1-2 unit. Advanced American or English History, each 1-2 unit. Commercial Law 1-2 unit. Harmony or Oratory, two hours a week, throughout the year, each 1-2 unit. Drawing or Physical Culture, two hours a week throughout the year, each 1-4 unit.

GRADUATION.

A certificate of graduation is given to those who complete the Academy course, and graduation exercises are held on Tuesday afternoon of Commencement week, at which time certain members of the class designated by the Faculty give such public exercises as are assigned them.

ACADEMY STUDIES IN DETAIL.

BOTANY.

The course in Botany gives the student a knowledge of seeds and their germination, enables him to draw plant structures and to classify flowering plants intelligently according to an analytical key, such as Gray's "Manual of Botany."

CIVICS AND ECONOMICS.

(a) In Civics the candidate must study the organization of the village, city, township or county, and state government under which he has lived; the Constitution of the United States and the operation of the government under the Constitution; the election or appointment of and duties of public officers; the division of functions between national, state, and local governments; the constitutional guarantees of the liberty of the citizens; and should gain a general knowledge of the origin of our political institutions, especially their connection with the English government.

(b) Economics—The nature of demand and supply, value and price under free competition and under monopoly, rent and diminishing returns, interest, profit, wages, the increase of capital and of the supply of labor, conditions affecting the efficiency of labor and of industry, international trade and protective tariffs, the elementary principles concerning money, credit, banking, bimetalism, and taxation. Laughlin's "Political Economy" and Fiske's "Civil Government" will serve to show the scope of the work required.

ENGLISH.

1. Grammar—A knowledge of technical terminology and of syntax—such essentials as may be found in Reed and Kellogg's "Higher Les-

sons in English." Written work is required to place pupils in complete possession of what they are taught. Some of the simpler classics are used to enforce grammatical principles. Compositions are also required once a week during the year, descriptive of scenes and objects actually witnessed by the writers, and narrations based on experience.

2. Rhetoric and Composition—The ability to write correct, clear, and coherent English; a knowledge of the principles of punctuation, capitalization, sentence structure, and paragraphing.

3. Literature—The careful study of certain masterpieces; the reading of a number of assigned books. A definite knowledge of the subject matter, an understanding of the literary form and the structure of the works suggested, together with a knowledge of the biography of the authors and some notion of the literary periods in which they lived. Particularly should the student be able to express a sensible opinion concerning any book which he has read. Books assigned for reading should be taken up with the aim of getting clearly in mind the style and the main features of the subject matter, such as the plot, incidents, and characters.

The books to be recommended for reading and study throughout the preparatory courses are those generally assigned for secondary school work, namely:

(a) For careful study—Shakespeare's "Julius Caesar," Milton's "L'Allegro," "Il Penseroso," "Comus," and "Lycidas"; Burke's "Speech on Conciliation with America"; Macaulay's "Essay on Addison," and "Life of Johnson," or Washington's "Farwell Address," and Webster's "Bunker Hill Orations."

(b) For Reading—Shakespeare's "Merchant of Venice," and "Macbeth"; Addison's "The Sir Roger de Coverly Papers"; Irving's "Life of Goldsmith"; Coleridge's "Ancient Mariner"; Scott's "Ivanhoe," and "Lady of the Lake"; Lowell's "Vision of Sir Launfal," and "Elaine"; and Eliot's "Silas Marner."

FRENCH.

1. During the first year, the work comprises a careful drill in pronunciation; the rudiments of grammar; regular and common irregular verbs; the ready use of personal pronouns; elementary rules of syntax; abundant exercises in grammar; the reading of from 100 to 150 pages of easy French, and writing French from dictation.

2. During the second year the work comprises from 250 to 300 pages of easy modern French prose (stories, plays, and historical

sketches); frequent memorizing of a few lines of French (prose or poetry); and conversation exercises on texts thus committed to memory; dictation; continued drills in the rudiments of grammar (adjectives, pronouns, irregular verbs, use of tenses, etc.)

GERMAN.

1. In the First Year—Drill in pronunciation; dictation; drill in the rudiments of grammar, i. e., the inflections of noun, pronoun, and verb; the use of prepositions, and the simplest rules of syntax; simple exercises in conversation; and the reading of from 75 to 100 pages of graduated texts, either from a reader or from editions of easy texts.

2. In the Second Year—A thorough review of the first year's work in grammar, supplemented by numerous exercises in translating from English to German; a further study of syntax; conversation, based upon the texts read; and the reading of from 150 to 200 pages of literature in the form of easy stories, plays, and historical sketches.

GREEK.

1. Greek Grammar—The inflection of nouns and verbs; the principles of the syntax of nouns and of verbs; the structure of sentences in general, with particular regard to relative and conditional sentences, and to indirect discourse; versification so far as applied to the dactylic hexameter.

2. Xenophon—The first four books of the *Anabasis*.

HISTORY.

1. Ancient History.—A brief survey of the earlier nations of civilization and a careful study of Greek and Roman History. Myers' "Ancient History" or some equivalent work is used as text. Readings and studies outside the text are required throughout the year.

2. Mediaeval and Modern History. A study of the Migration of the Tribes, the Founding of European States, Feudalism, the Renaissance, the Revolution. Modern constitutional government. Myers' "The Middle Ages" serves as text book. Topics assigned with reference to standard and special books.

3. American History.—This is an advanced academy course, based on some approved text like Channings' "Students' History of America" one-half unit.

4. English History.—A thorough study of the main facts that contributed to the growth of the English nation. An advanced text like Montgomery's "England" is used. One-half unit.

LATIN.

First Year. Hale's First Year Latin or equivalent, followed by selected anecdotes, tales, stories of mythology together with exercises in the writing of Latin throughout the year. Five hours a week.

Second Year. Selections from the commentaries of Caesar equivalent in amount to four full books. Exercises in reading at sight, translation at hearing, drills in oral reading of Latin, pronunciation, phrasing, etc. Grammatical reviews and writing of Latin throughout the year. Five hours a week.

Third Year. Selected orations of Cicero, at least five, together with some of his letters for variety and interest; composition and grammatical studies, frequent practice in reading at sight. Five hours a week.

Fourth Year. Vergil's Aeneid, six books or selections equivalent; reviews at hearing, sight reading, written translations, oral reading and scansion of Hexameter verse, comparative studies in English Literature. Five hours a week.

MATHEMATICS.

High School Algebra—At least one year of study, covering the text of modern books on Algebra as far as quadratics, the latter included.

In Geometry one year and a half are allowed for Plane and Solid Geometry. Numerous original demonstrations are required, and problems in construction are frequent, executed with care and accurate workmanship. Pupils have practice in varying the forms of figures used for demonstration. In Solid Geometry models are used freely, in order to make clear the difference between figures in space and figures in a plane.

Advanced Algebra—A review of Algebra and an extension of it through the subject of logarithms, requiring one semester.

PHYSICS.

The student must be able to work simple numerical problems relating to falling bodies; levers; the simple pendulum; phenomena of liquids and gases, including the determination of pressures; the density of solids and liquids by means of the principle of Archimedes; specific heats, and heats of fusion and vaporization; the relations involved in Ohm's law; the simpler phenomena of sound; refraction and reflection and the size and position of virtual and real images due to mirrors and lenses. The student should also be familiar with the use of the vernier and with the metric system. Laboratory work is required throughout the year.

PHYSIOLOGY.

Blaisdell's Physiology, (extended course), or an equivalent, is used as a text-book, with laboratory work of such a nature as to employ the pupil's knowledge of the facts and processes of chemistry and physics in the explanation of physiological phenomena.

ZOOLOGY.

Candidates offering Zoology as an entrance subject are expected (a) to make a careful and detailed study of at least ten morphological "types," (b) to be familiar with the general principles and phenomena of animal biology; (c) to have supplemented the laboratory work with field trips.

ART, MUSIC, ORATORY, PHYSICAL CULTURE,

For detailed information on these subjects see the note under the College Studies and the respective departments.

NORMAL SCHOOL AND SUMMER SCHOOL

Faculty.

Henry Vosholl, Dean	Professor of Pedagogy
John H. Frick,	Professor of Mathematics
A. W. Ebeling	Professor of Natural Sciences
C. J. Stueckemann	Professor of English
John Helmers,	Professor of History

General Statement.

Central Wesleyan College has long made a specialty of training teachers for the public schools, high schools, and colleges of the land. The opportunities offered here are exceptional. While no separate Normal Course is maintained and no Normal Diploma is Conferred, all the studies required for first, second and third grade certificates are taught. At the same time the student may pursue collegiate studies which will be fully credited on his college course. By a recent ruling of the State Superintendent of Public Schools college graduates may under certain conditions receive a two-year certificate, which may be converted into a life certificate when certain requirements are met.

Admission.

Students are admitted under the same conditions as apply to students in the Academy and College. For detailed information as to the studies see the respective pages under the heads of College and Academy.

The Summer School.

The Summer School for the year of 1911 will begin Monday, May 22nd, and will continue ten weeks, ending July 21st. Tuition for the full term is \$10.00. The Summer School is an integral part of the College and is fully approved by the State. The standard of scholarship, the quality of work done and the

ideals of character and conduct are the same as for other terms of the year. Instruction is given by the regular professors and instructors. The entire equipment of the College is available for use during the session.

The Summer School is designed:

1. For teachers who wish to review or do advanced work.
2. For young men and women preparing to teach.
3. For College students who desire to make up back work or shorten the period of the regular college course.
4. For those preparing to enter college, but who find themselves deficient in one or more of the college entrance requirements.
5. For special students in any line of work offered by the College.

The State Board of Education stipulates that no student shall receive more than three credits toward a teacher's certificate.

Studies Offered.

The following subjects are offered, for which grades will be accepted by the State Superintendent and County Boards of Education:

1. English: (a) Grammar, a year's work in advanced grammar, (b) Rhetoric and composition as much as is required in the second year of a first class high school. (c) American or English Literature, as much as is required in the third or fourth year of high school.
2. Mathematics: (a) A year's work in advanced arithmetic. (b) Algebra, a complete high school text through quadratics.
3. History: (a) A year's work in English history. The Library method is used in connection with a text book.
4. Science: (a) A year's work in Physical Geography and (b) a year of Agriculture, both subjects taught by the laboratory method. (c) Physiology and Hygiene.
5. Professional (a) General pedagogy, including school management and Method of Teaching.

SCHOOL OF BUSINESS

Faculty.

Oscar H. Werner A. B., M. Accts. Principal
.....	Bookkeeping and Commercial Law
Chester, A. Harmon,	Stenography and Typewriting
Marjorie Parker	Stenography and Typewriting
Olin J. Hessel	Penmanship
Other Professors in the Academy and College.	

Courses.

The aim of the courses is to give the student not only a thorough training in the principles of Bookkeeping, Stenography and Typewriting, but to give him the broader culture which is essential to a successful business life.

Two courses are offered in Bookkeeping, the one requiring the completion of the first three budgets of the Sadler-Rowe system, the other the completion of five budgets and requiring other advanced studies. The shorter course leads to a diploma, the longer course to the degree: Bachelor of Accounts. Ordinarily one year of resident work is required to finish either course. The degree: Master of Accounts may be acquired by subsequent work under the direction of the Principal of the School of Business. The course in Stenography and Typewriting leads to a diploma.

Time to Enter.

Students may enter at any time during the school year, but, if possible, it would be better for all those wishing to take the Bookkeeping or Shorthand and Typewriting Courses, to enter at the opening of school in September.

Positions.

Students are assisted in every way possible in securing positions. The demand for our graduates, both in Bookkeeping

and in Shorthand and Typewriting is an indication of the good work done. Our graduates are to be found in St. Louis, Kansas City and many other cities, filling positions of honor and trust.

Tuition.

The tuition for a term of nine weeks is as follows: For the Bookkeeping Course \$12.00; for the Stenography and Typewriting Course \$10.00. If paid by the year in advance, the terms are as follows: For the Bookkeeping Course \$40.00; for Stenography and Typewriting Course \$35.00. These prices include the use of typewriters and instruction in general penmanship, as well as other studies in the Academy or College.

A. BOOKKEEPING.

At no time in the history of our country has the pursuit of commercial industries been so predominant as today. The demand for well-educated business men is increasing daily and although extraordinary efforts are being put forth to meet the demand, it is utterly impossible to do so. Young people with the best education win the highest places. Many business colleges make a specialty of graduating young people as quickly as possible. The controlling principle in our department is not in how short a time a student may graduate but how thoroughly he may be prepared to fill the very best position. A splendid opportunity is offered to students who have not had the opportunity of completing a course in the elementary branches as the general Preparatory Department offers all these branches to commercial students without extra charges.

Methods.

The most practical methods of presenting the subject of bookkeeping are used, in which the business transaction is made the starting point instead of the ledger account. The student transacts all business in his own name, uses current dates, makes out, issues, and receives all classes of commercial paper

in a business way, handles college currency and merchandise and besides makes the necessary records in his books. The Sadler-Rowe system has been adopted, which is used in almost all of the leading business schools of the country. Besides training the student to transact business he is taught to pay close attention to the directions of his employer.

Individual Instruction.

The student does all of his work in bookkeeping in the school rooms under the supervision of the teacher, who gives him individual instruction whenever necessary. Each student is independent of the other and advances according to his ability in mastering the work before him. Some class-work, however, is done at times, in which the student is given a thorough drill in the theory of accounts.

Actual Business.

While engaged in Actual Business Practice, the student carries on a real business. He buys from his fellow students, sells to them, receives college currency and pays it out, keeps a bank account, has dealings, with wholesale houses, and other offices. In addition to this work in the school room, the student has dealings with students of other colleges, which enables him to do business by correspondence and to see the grade of work done in other schools. This induces him to take an actual personal interest in his work, and as a result he is delighted and interested from start to finish.

Commercial Law and Commercial Geography.

A course in Commercial Law is offered. Contracts, bills of sale, the principles of bailment, methods of entering into a partnership, the business of a corporation and the rules and regulations for holding and selling real and personal property, are some of the important topics presented to the student.

One semester will be spent in the study of Commercial

Geography. The subject will be presented with reference to the importance of civilization, manufactories, agriculture, lumbering, mining resources, and of the topography and climatic conditions of leading countries of the world.

B. SHORTHAND AND TYPEWRITING.

The demand for competent stenographers in this age of business activity is unprecedented; in fact the supply does not equal the demand. The immediate remunerative returns are greater than in any other branch requiring the same amount of preparation while the opportunities for advancement are much greater. More directors and presidents of great business enterprises have been drawn from the ranks of the stenographer than from any other class. It is their constant association with the details of business which enables stenographers to step into the higher positions.

A practical acquaintance with the art of shorthand is highly favorable to the improvement of the mind. The close attention requisite in following the voice of the speaker induces habits of patience, perseverance and watchfulness. The necessity of adhering to the train of thought which runs through the discourse will naturally have a tendency to endow the mind with quickness of apprehension and will impart a readiness of perception as well as a methodical simplicity of arrangement which can not fail to conduce greatly to mental discipline. Besides it improves the memory, excites invention, matures the judgment, and develops precision, vigilance and perseverance. It enables one to treasure up for future study the substance of lectures and sermons and the best books of the age.

Methods.

The Gregg system of shorthand is used. While this is one of the newer systems, it has made such rapid progress that it is now taught in more schools of the United States than any other individual system. The work of the first semester enables

students to do light correspondence. During the second semester practical office work is done in the Business Practice Department and for the President of the College and different members of the Faculty. Speed drills and all kinds of dictation, business letters, legal and commercial matters, depositions, etc., follow. Excellent opportunities are afforded for gaining practical experience as reporters by taking down debates, speeches, college orations, lectures, etc.

Arrangements can be made for taking a combination course, consisting of studies from the shorthand and typewriting courses, and from either of the business courses.

GRADUATION.

Students completing either of the courses outlined below will receive the respective diplomas without extra charge.

BOOKKEEPING COURSES.

Diploma Course.

First Semester.

Penmanship.
Arithmetic.
Grammar.
Spelling.
Inductive Budget.
United States History.
Wholesale and Retail Budget.

Second Semester.

ART DEPARTMENT

Miss Florence M. Stanley, Director.

"Art is man's pleasure expressed in labor." The person who possesses a working knowledge of drawing and painting has taken a long stride in the line of a liberal education. The principle upon which this department is founded is to maintain in the highest efficiency the severe practice of academic drawing and painting, from life, from the antique, and from objects, and around this practice, as a living stem to group the various departments of Art education.

COURSES OF INSTRUCTION.

Elementary. Drawing from antique fragments, in outline and general light and shade, together with practice from blocks and familiar objects.

Antique. Heads and figures from cast in full light and shade.

Life. The figure sketch class held one afternoon each week gives all students the opportunity to draw from life from the beginning. Any medium may be used.

Still Life. Drawing and painting from still-life studies, interiors, etc., in pencil, charcoal, pen and ink, water color, and oil.

Landscape Study. Drawing and painting from nature in pencil, charcoal, or watercolor. Outside classes in season.

Art Crafts and Applied Design. The practical application of designs in basketry, leather, metal, bookbinding, block-printing, stenciling, wood-carving, etc.

China Painting. The instruction in this class covers processes and materials including the practical application of design to china, the use of tools and appliances, the properties of paints, bronzes, lustres and gold, the method of firing, etc.

Pottery. This course includes the making of useful objects from clay, and the placing of designs upon them. The study of the preparation of the clay and the glazes and process of firing.

Mechanical Drawing. Geometric problems, use of instruments, shop drawing, projections, intersections, penetration of solids, shades and shadows, and architectural drawings.

Accompanying privileges open to all students are the classes in Perspective, and History of Art supplemented by a study of master-

pieces. Examinations will be given. These classes are recommended to all students as an essential part of a thorough art education. ,

There is no time prescribed for the course of drawing and painting. Each student is advanced individually. Certificates of Attainment are granted to pupils who complete the course in Art, and who have finished the studies of the Academic Course or its equivalent.

A concours, that is, a competition with judgement of the work, is held in each of the classes at the end of each month. In this concours, the studies of the preceding week are arranged in the order of merit and placed upon the wall, numbered 1, 2, 3, 4, etc. The students thus have opportunity to compare their work with others, and to see what qualities are most highly valued. At the same time studies of the previous week selected for Honorable Mention by the instructor are placed upon the wall.

Those drawings that receive Honorable Mention are retained for the exhibition of students' work at the end of the year, and the school claims the right to retain selected examples permanently.

From time to time there are loan exhibits, which feature, in itself, is an education to the observing art student.

Tuition.

Drawing and Painting, Full time for one term, (three lessons per week,)	\$10.00
Art Crafts and Applied design for one term. One lesson per week	\$5.00
China Painting for one term. One lesson a week	5.00
Pottery—For one term. One lesson a week	5.00
Mechanical Drawing. One lesson a week. Free in Normal and Scientific Courses	2.50

An easel and board for drawing will be furnished each student, but for the use of an additional board a charge of twenty-five cents each will be made.

Lock boxes for materials will be furnished if desired, at fifty cents a term.

Tuition fees must be paid in advance.

Fees will not be refunded on account of absence, but in case of absence of a period of over two weeks consecutively the student's time will be extended by a period equal to the time so lost.

Students may enter at any time during the term.

DEPARTMENT OF ORATORY

Miss Laura L. Holtz, Director.

Elocution is the science and art of expression by means of voice and action. The study of Elocution purposes to develop individuality, strives for correct and refined pronunciation of words, and aims to create ease and grace on the platform.

Oratory I. The first term takes up the study of pronunciation, vocal purity and naturalness. Charts for correct pronunciation are made by each student. Exercises in correct breathing, control of the organs of speech, placing of voice and purity of tone are given. Miscellaneous selections are studied. Text: Cumnock "Choice Readings." Two hours throughout the semester.

Second Term.—Vocal Energy, Orations, Emphasis, Imagery and Extemporaneous Speaking are studied. Special stress is laid on the pupil's individuality. The development of the imagination in conjunction with which original descriptions of scenes are given by each student. Inflection and Cadence are studied with illustrative selections.

Oratory II. First Term, an advanced course is arranged for those who wish to give special study to the art of Public Speaking as followed by ministers, lecturers and readers. This term's work includes the study of the Psychology of Public Speaking, and the study of the master Orators. Two hours a week throughout the semester.

Second Term. Special stress is laid on Voice Technique, bodily expression and Argumentation.

A number of recitals were given during the year, which proved to be not only entertaining to the audience, but very helpful to the participants.

One semester's work in Oratory, two hours a week, is required of all students before graduation. For this course there is no extra charge.

Tuition for Private Instruction.

One lesson a week, per term	\$6.00.
Two lessons a week, per term.....	\$10.00.

DEPARTMENT OF PHYSICAL CULTURE

L. L. Benedict, Physical Director for Men
Laura L. Holtz Physical Director for Women
Eugene Weiffenbach, Commandant

THE ATHLETIC BOARD.

This department is under direct control of a committee of five, known as the Athletic Board, composed of the Physical Director, two Faculty members and two students, the latter elected by the student body. Actions of the Board are of course subject to revision by the Faculty. The purpose of this Board is to secure the best possible conditions in Athletics, especially to insist upon two points: that the conduct of all taking part shall be fair, and that no student shall follow athletics to the detriment of his studies.

Required Work.

All students are required to take two years of systematic physical culture. They may be excused only on a physician's certificate of physical disability. Up to and including the Freshman year students are enrolled in course I, which consists of calisthenics, elementary apparatus work or military drill twice a week. Course II, may be taken any time before graduation. It consists of calisthenics, advanced apparatus work or military drill twice a week. The credit given for each course is 2 hours. The maximum of credits which may be earned is 4 hours, which also represent the minimum requirement for graduation. Students playing tennis, basket ball or base-ball receive time credit but not grade credit for one semester.

Physical Culture.

The splendid new College Gymnasium is supplied with apparatus of all kinds for class work in physical culture.

The work in the gymnasium consists of all forms of calis-

thenics and setting up exercises, exercises with 'dumbbells, Indian clubs, wands, etc., which develop quick thinking, accuracy of motion, and skillful use of the various parts of the body. The training corrects physical defects, develops good carriage, and benefits the whole system by stimulating the circulation and nutrition. An effort is made to make the gymnasium not merely a school for muscular development, but rather a place for recreation, in which mind and body are refreshed and strengthened. The aim is not to 'develop specialists, but to equip every graduate with physical vigor, without which no man can long survive the nervous strain of active life under modern conditions. Public exhibitions are given at stated times which add to the interest in the work. The exhibition given April 13, 1910, was very creditable.

ATHLETICS.

The Gymnasium and the Athletic Field give ample opportunity for legitimate and healthful games. The main floor of the Gymnasium is arranged for indoor games and basket ball. On the Athletic Field are a fine base ball diamond, a basket ball field and a quarter mile running track. Three tennis courts are also maintained.

To be eligible for any team, the student must carry "full class-room work" (not less than 16 hours a week in College or 18 hours in the Academy) and must not fall below 70 in any study or retrograde in scholarship during the playing season. The Faculty decides on the eligibility of the player, and upon the number of inter-collegiate games to be played. The declaration of his ineligibility shall be effective in three weeks after it is made. The endeavor is to make all sports a source of moral as well as of physical strength.

Many intra-mural basket ball games were played and eight inter-collegiate games in each of which the Central Wesleyan team was victorious. Five inter-collegiate base ball games were also played during the present year.

MILITARY.

Military drill in colleges is recognized not only for its military, physical and hygienic value, but also because it gives to the student a certain mental and moral training, which he gains naturally during the drill exercises, for which thus far no substitute has been found. A good authority says: "The drill affords excellent but not violent exercise, at that time of day when the mind begins to grow weary with continued application. By its discipline, boys learn to walk erect, and to hold the head and shoulders in proper position at all times, and thus to breathe better. It counteracts the tendency to become round-shouldered, and to walk with a languid gait, so often observed at the period of rapid growth, especially in close students.

The cadets receive military drill under an experienced commandant. The guns used are Springfield rifles, U. S. Army pattern, which, with accoutrements, the State furnishes free of charge. The Cadet uniform is similar to that of West Point.

The cap is the usual military Cadet cap with gold embroidered C. W. C. device. These uniforms are made by the best military tailors under contract and can be secured at a very low price. Cadet officers and non-commissioned officers wear the West Point Infantry Insignia of rank. Students desiring to enter the College Battalion are advised to purchase one suit less at home, so that they can buy a uniform here. In fact, all students would do well to buy this uniform as it is cheap and wears better than other suits and can be worn regularly.

THE CONSERVATORY OF MUSIC

FACULTY.

F. A. NUNVAR, Director.
Piano, Organ, Violin, Theory of Music.
MRS. F. A. NUNVAR, Voice.
BERTHA SPITZE, Piano.
LA NETA KUHNE, Assistant.
CLARA KOELLING, Accompanist.
G. C. HOHN, Director of the Glee Club.
C. L. WELLEMAYER, Director of the Church Choir.

GENERAL STATEMENT.

It is the aim of this department to give those who come under its supervision in the regular course the best musical education possible and give to those who come in only for a short time such instruction and help as shall be of great benefit to them and to inspire within all its students an aspiration for the highest ideals in art and every day life as well.

The director has had superior educational advantages, having studied with some of the best masters of Europe. The work during the past year was gratifying, excellent results having been obtained in all the branches taught. The enrollment in this department was unusually large.

The Conservatory is to music what the college is to a literary and scientific-education. The number of students all bent on the same object, the friendly rivalry springing from it, the regularity with which lessons are given, the special advantages of hearing the best musicians, the opportunity of playing together with others of the same grade, and of performing in public, in fact, the whole surroundings of the conservatory are favorable to learning.

The branches taught are Piano, Voice, Organ, Violin and other orchestral instruments, as well as Theory, Sight-Singing, etc. The time needed to complete the course will depend on the ability and industry of the pupil.

COURSES OF STUDY.

PIANO.

It is impossible to arrange a course of study that will be adapted to any and all students. It is the plan of the conservatory to use such material as will be adapted to the needs of each individual student. It would be useless to attempt to give all the material used in the various courses. It is not to be understood that the student must go through all the exercises and studies here mentioned, nor that the material mentioned is sufficient in all cases. The supply of excellent teaching material is so large and varied that the experienced teacher will choose from a great many works for each individual student those things which shall best meet his needs. The Mason System of Technic as well as the Liszt and Deppe Method are used, and technical exercises, scales, chords and Arpeggios are required in all grades.

The following outline will give an idea as to the difficulty of the material used in the various grades.

Preparatory—Kohler, Practical Method, Vol. I. and II; National Graded Course, Book I and II; Tapper Graded Course, Books I and II; Kohler, Short School of Velocity; Alois Schmitt, Preparatory Exercises; Duvernoy op. 176 and 120; Studies by Loeschorn, Bertini, Gurlitt, Heller and others. Easy pieces and Sonatines.

Intermediate—Kohler, Practical Method, Vol III; Tapper Graded Course, Books I and II; National Graded Course, Book III; Bach, Little Preludes and Fugues and Two-Part Inventions; Studies by Heller, Doering, Berens, Le Couppey, Lemoine, Czerny op. 299, Doering Octave studies, and such other studies as may be required for each individual student. Pieces and easy sonatas by Clementi, Haydn, Mozart, and Beethoven, are used in this grade. Theory should be begun, and the work as outlined in the first year of the theory courses should be completed in this grade.

Teachers' Course—National Graded Course, Books IV,, V, and VI; Tapper Graded Course, Books I and II; Studies by Jensen, Heller, Cramer, Clementi, and others; Kullak Octave Studies. Pieces by the best modern composers, selections from the standard works and sonatas and concertos are used in this grade. The work outlined in the first three years of the theory course is required to complete this course, for which a diploma will be given.

Degree Course.—Bach, Fugues: Studies by Cramer, Clementi, Chopin, Moscheles, and Rubinstein. Compositions by Schumann, Chopin, Grieg, Brahms, Mendelssohn, Beethoven, Hummel, Tschaikowsky; Concertos and other pieces for two pianos. To receive this diploma students must have an excellent record in all lines of work and conduct

and be successful in solo playing of a high grade. They must have completed the work as outlined in the theory department and be prepared to enter the Freshman Class in College. Upon those who successfully complete this course the degree of Bachelor of Music will be conferred.

A recital is required of all, who graduate from either the Teachers' or the Degree Course. Students who do not complete a course will receive on application, a certificate, showing what work they have done.

VOICE

The importance of studying vocal music cannot be overestimated. It is especially beneficial to the piano student. The more a pupil knows about singing, the better he will play his instrument. The instrumentalist who has no conception of the musical product of the human voice at its best, falls far short of the possibilities of expression in his instrument. The benefits to be derived from the study of Voice Culture are being appreciated more and more every year, and the students are taking advantage of the work offered in this department in increasing numbers.

It is the aim of this department to cultivate an intelligent and artistic style of singing. The cultivation of the voice consists in the development of pure tone, and its easy, natural use and control in singing. Correct use of the breath, intonation, attack, legato and phrasing are the leading features of technical drill.

The well known Sieber, Root, Concone, Spicker, Luetgen, Marchesi, and other studies are used. Songs by the best modern composers as well as solos and oratorios and other standard works are studied.

Certificates will be granted to students who have acquired considerable proficiency in singing and are able to play accompaniments acceptably.

From three to four years are required to complete the entire course, for which a diploma will be granted. The graduation requirements are the same as for the piano.

MUSICAL THEORY.

Recognizing the absolute necessity of a thorough knowledge of musical theory, especially for those who desire to make music a profession, the department insists upon a thorough study of this branch. Harmony, Counterpoint, Canon, Fugue, Composition, Ear-Training, Sight-Singing, and Musical History are taught in classes or privately. The first three years are required in the Teachers' Course. Candidates for the degree of Bachelor of Music must have completed the entire course outlined below:

FIRST YEAR.

First Term.

Sight-Singing.
Scales and Intervals.
*Physics.
*Rhetoric.

Second Term.

Sight-Singing.
Intervals and Chords.
*Physics.
*Rhetoric.

Third Term.

Ear Training.
Harmony.
*Botany.
*Rhetoric.

Fourth Term.

Ear Training.
Harmony.
*Botany.
*Rhetoric.

SECOND YEAR.

First Term.

Harmony.
Theory.
*Literature.
*General History.

Second Term.

Harmony.
Theory.
*Literature.
*General History.

Third Term.

Harmony.
Analysis.
*Literature.
*General History.

Fourth Term.

Harmony.
Analysis.
*Literature.
*General History.

THIRD YEAR.

First Term.

Counterpoint.
History of Music.
*French or German.

Second Term.

Counterpoint.
History of Music.
*French or German.

Third Term.

Counterpoint.
History of Music.
*French or German.

Fourth Term.

Practical Composition.
*French or German.

FOURTH YEAR.

First Term.

Canon and Fugue.
*French or German.

Second Term.

Canon and Fugue.
*French or German.

Third Term.

Composition and Score Reading.
*French or German.

Fourth Term.

Composition.
Orchestration.
*French or German.

*These studies are required but may be taken at any time during the course. Upon presentation of satisfactory evidence that the work has been done elsewhere, credit will be given.

VIOLIN.

To many the Violin will always be the most fascinating musical instrument because it approaches the human voice more perfectly than any other. For solo playing, for duetts or orchestral work, for leading the singing in Sunday Schools, the violin is hardly to be equaled.

The department offers thorough instruction on the violin, as the course given below will indicate. The requirements for graduation are the same as for the piano. The diploma of the department is conferred upon graduates.

1. Violin Methods by Henning, Books I and II; Exercises by Dancla; Kayser, Book I; Solos by Dancla, Op. 89.
2. Kayser, Book II; Mazas Special Studies; Exercises by Schradieck; Solos by Dancla, Op. 118; H. F. Farmer and Bohm.
3. Kreutzer, 40 Etudes; Alard, Scale Studies; Fiorillo Studies; Selections by De Beriot, Farmer, Hauser and Bohm.
4. Mazas, 25 Brilliant Studies; Art of Bowing by Tartini; Concertos by Viotti; De Beriot, and Kreutzer; Rhode Caprices; Dancla, Op. 73.
5. Schradieck, Books I and II; Mazas Artists' Studies; Alard, 10 Characteristic Studies; Concertos by David, Rode, De Beriot, etc.
6. Campagnolia, seven Positions; Cramer 33 Studies (by Abel); Bach, six Sonatas for Violin alone; Sonatas and Concert Selections, by Spohr, David, Vieuxtemps, Wienianwski, Mendelssohn, Bruch and Beethoven.

ORCHESTRA.

Those, who are competent players on any orchestral instrument, are given opportunity for practice in the College Orchestra, which meets weekly and furnishes a part of the music in the amateur concerts.

PIPE ORGAN.

The demand for instruction on this instrument is continually increasing. Almost every church contains a pedal or pipe organ and in many cases its beauties and capabilities are not known for want of a competent player. It is with a view to meet this demand that the department has arranged a course in organ playing which shall be equal to the work done in the piano and vocal departments.

A Hinners' Organ of modern type, having balance swell pedal and concave pedal board with radiating sharps, is used for teaching and practice, as well as a two-manual pedal Estey reed organ. As the technique required for organ playing is most readily and economically acquired by practice on the piano, students desiring to take up the study

of pipe organ should first do the piano work as outlined in the preparatory and intermediate grades so as to be able to play polyphonic music readily.

The first requirement in organ playing is a legato touch, a knowledge of the effects of the various stops, and the independent movement of hands and feet; all other practice for the acquirement of manual technique should be done on the piano.

The following are some of the studies and compositions which will be used in the courses: Clemen's Organ School, Whiting's First Studies, Rink's Best Organ School, Hymn Tunes, and compositions by Thayer, Volkmar, Lemmens, Guilman and others. These may be followed by Bach's Little Preludes and Fugues, pieces by Merkel, Guilman, Dubois. Sonatas by Mendelssohn and Rheinberger and others and modern compositions by German, French and English masters; accompanying chorus, quartette and solo voices.

The time required to complete a course in this department and receive a diploma, depends so much on the technical ability of the candidate when he begins the study of organ, that it is difficult to even estimate it, but few will acquire the necessary skill and general musical education required in less than three or four years. A recital is required of all candidates for graduation. The program must contain a Sonata by Mendelssohn or Rheinberger or one of equal difficulty. The literary and theory requirements are the same as for piano. The diploma of the department is granted to graduates in this department.

ARTISTS' RECITAL COURSE.

The opportunity of hearing good music rendered by competent performers is of no less value than the class-room instruction. To give the students this advantage, a series of recitals is given each year, for which the best talent available is secured.

This year five concerts were given as follows: Mr. Keller, Chicago, Organ Recital; The Roney Boys; J. C. Eisenberg, Piano and Arno Wächter, Violin; Conservatory Recital; Chorus Concert.

STUDENTS' RECITALS

Among the most important incidental advantages of the Conservatory are the recitals, at which the students perform such pieces as have been assigned to them in their regular lessons. This gives the student an opportunity to gain self-control in public appearance and to become acquainted with many works that they otherwise have no opportunity of hearing. Ten such recitals were given during the year.

MUSICAL ORGANIZATIONS.

The Musical Union is a mixed chorus, composed of about fifty voices. It meets every Monday evening for practice, taking up some of the many excellent choral works to be rendered in a public concert. During past years the great oratorios: "Elijah", "Creation", "The Messiah", and many modern works, such as "Joan of Arc", "Ruth" and the "Holy City" have been presented.

The Church Choir is composed of twelve voices. The Choir furnishes the music for the Sunday services and special meetings in the College Church. This year the cantata "Jehovah" by Lermen was rendered.

The Olympic Glee Club, composed of twelve men, has supplied music for many of the college functions. The club makes several concert tours each year and gives a concert in Kessler Hall.

Quartettes. There are a number of Ladies' Quartettes and Male Quartettes, whose services have done much to create a wholesome college spirit, and to create a love for music.

Application for membership in the above organizations should be made to the respective directors at the opening of the school year.

TUITION.

Tuition must be paid in advance by the term. No reduction is made for lessons lost, except for protracted illness. Tuition for the term of nine weeks in any of the departments of the Conservatory is as follows:

One class lesson, per week.....	\$5.00
One private (half hour) lesson per week.....	\$9.00
Harmony I, \$2.00; Harmony II, \$3.00; Canon and Fugue	\$5.00
Use of Piano, 1 hour daily\$2.50; 2 hours.....	\$4.00
Use of Pedal or Pipe Organ, 2 hours a week	\$2.00
Singing Class, 2 hours a week	\$1.00
Academic studies, each	\$1.50
Collegiate Studies, each	\$2.00

GERMAN THEOLOGICAL SEMINARY.

The Theological Department of Central Wesleyan College was recognized by the Episcopal Board as an official Theological Seminary of the Church, November 6, 1900. In the revised charter it is designated as the "German Theological Seminary." As such it aims to prepare young men for the service of the Christian Church, whether in the home land or in foreign fields.

As the name would indicate, the work in the Theological seminary has been carried on in the German language almost exclusively and the graduates have had the German work in mind during their years of preparation. Several hundred men, who have rendered efficient service in the various German Conferences, received their training wholly or in part in this school.

In addition to these many others have entered some English Conference, and are seeking to promote the interests of the Kingdom of God. Young men, who are looking to the ministry or the mission service as a life vocation will find it to their advantage to take one of the Collegiate Courses in Central Wesleyan College and combine these with such Biblical Studies as are offered in the Theological Seminary in English.

The Seminary offers two diploma courses, a classical theological course leading to the degree A. B., and the higher theological course leading to the degree B. D.

Four Professors give instruction in Theology. The enrollment for the present year was 38. Liberal terms can be made to students of Theology bearing proper credentials. For further information concerning the German Theological Seminary write for the Supplementary Catalogue which is published in German.

TO OUR BENEVOLENT FRIENDS.

Central Wesleyan College herewith makes an earnest appeal for help to meet the increased demands made upon it. The most urgent need at present is more endowment money. It should have at least \$200,000.00 to meet the requirements of the University Senate, and to accomplish the work of a standard college. This appeal is made for three reasons:

1. Because a good beginning has been made; the Mt. Pleasant endowment fund amounts to \$30,000.00; that of C. W. C. to \$100,000.00, and to this sum \$12,000.00 secured from the educational fund of the St. Louis German Conference must be added, making the sum total \$142,000.00, more or less.

2. Warrenton is located at a strategic point. There is no college of any other denomination nearer than fifty miles. There is no competing State School nearer than seventy-five miles, and there is no school of the same denomination nearer than 150 miles. It is near enough to the city of St. Louis, the Metropolis of the Middle West, to be in easy touch with it; to enjoy its advantages and to draw the support of donors who appreciate the advantage of a Christian College located where students are comparatively free from the temptations and allurements of the large city.

3. Having always had a small income, the College has ever been conducted on the most economical basis and, therefore, yields the greatest possible good for the amount of money contributed. One of our donors who has given to many good causes, said: "No enterprise toward which I give is as productive of good, dollar for dollar, as Central Wesleyan College."

Its special needs are here mentioned, which may guide philanthropic persons in contributing to the cause of Christian education at Warrenton.

1. **A Professorship** can be founded for \$20,000.00, the interest of which sum will employ a good teacher for all time to come. The professorship bears the name of the donor

2. **A Library Alcove** is necessary for each department of the College. The interest of \$500.00 to \$1,000.00 would keep such an alcove furnished with the best books. The donor's name should distinguish the alcove, unless he had some other suggestion. We have several such alcoves, but we should have six more.

3. **A Lectureship** can be endowed with \$5,000.00. We need a lectureship on missions.

4. **A Scholarship** requires \$500.00, the interest of which would pay for the tuition for some needy student. A scholarship for all of the expenses of a student amounts to \$5,000.00. We have one such scholarship, The Addison H. Brown Memorial Scholarship.

5. The four forms mentioned have more particular reference to endowment. But besides endowment we need the following buildings: A president's residence, and a new, well equipped College Building. We also need an Astronomical Observatory costing about \$5,000.00. In each case we would prefer to have the name of the donor connected with his donation unless he may have other preferences. We have two such buildings: The Kessler Hall, built in honor of Prof. J. Louis Kessler, and The Andrew Eisenmayer Hall, to which Mr. A. Eisenmayer and his children were the principal donors.

6. During the last few years the school has been compelled to build and equip to such an extent that it was impossible to meet expenses. The necessity of collecting largely in both of the patronizing conferences for the Preachers' Fund and other interests made it practically impossible to secure the necessary funds for our new buildings. The indebtedness should now be met by a well-directed campaign.

7. Friends who have only enough for a living and desire to contribute to the cause of Christian education, will appreciate the annuity plan, according to which they give their money or deed their farm or other property to the College, on condition that the College give them an annuity, a certain sum annually, amounting to a low rate of interest, as long as they

live, after which the income of their gift will be used for the purpose designated by the donors. This plan should commend itself to persons who wish to place their money so it will cause them no uneasiness and yield them an assured annual income as long as they live. Those who would not want to part with their property, could deed it to the College and retain a life interest.

8. For persons who prefer to make provisions in their will for the cause of education, we give the following form:

FORM OF BEQUEST.

If a Legacy or Bequest:

I, of the county of State of being of sound mind, give and bequeath to Central Wesleyan College, a corporation, situated at Warrenton, Warren County, Missouri, and its assigns forever, the sum ofdollars to be paid by my executor out of my estate, and the receipt of its treasurer shall be a sufficient discharge to my executor for the same.

I appoint of the County ofState of executor of this my last will and testament.

Witness my signature thisday of 191.....

The said signed, published and declared the foregoing instrument as and for his last will in our presence. And we, at his request and in the presence of each other, have hereunto written our names as witnesses.

.....
.....

In case land is bequeathed use the following words:

I grant and devise to the Central Wesleyan College and its assigns forever the following described lands and tenements, situated in the county of, State of to wit:

STUDENTS

The College of Liberal Arts

Graduate Students.

Dutton, Mattie, B. L. '07	Warrenton
Eversmeyer, Estelle, Ph. B., '09	Wright City

Seniors.

Lawrence,	3	Warren,	123

ALUMNI ASSOCIATIONS.

The following Register of the graduates of Central Wesleyan College and of the German College, Mt. Pleasant, Iowa, aims to present a list of the alumni arranged according to the year of graduation and to give some general information about each graduate. To the names of persons known to be deceased and asterisk (*) is prefixed.

It is the desire of the College to make this record as complete and accurate as possible. Graduates are earnestly requested to send to the Faculty Committee on Alumni (Prof. J. H. Frick, Prof. Jno. Helmers), any correction or added information, which will serve to make future editions more complete.

The register of the German College graduates is confessedly incomplete. Every effort has been made however to perfect the record. The committee will be grateful for further data. The list has been printed separately in order to facilitate scrutiny of names, dates and facts. The alumni are asked to write a card to the committee stating whether for next year's catalog they prefer a separate list as here given, or a combined list of both schools.

An Alumni Association of C. W. C. graduates has been formed at the Missouri State University, Columbia. In St. Paul, Kansas City, St. Louis and other cities there have been local organizations and occasional banquets.

It would be well if an annual meeting of former students and graduates could be arranged for in every city, where a number of Central Wesleyanites are to be found.

The local Alumni Association at Warrenton has an annual meeting and banquet on Wednesday of Commencement week. Officers of the Association are:

President, Otto E. Kriege.

Vice-President, Rev. F. E. Brinkmeyer.

Secretary, Mrs. E. E. Vosholl.

Treasurer, Dr. A. W. Ebeling.

Alumni of Central Wesleyan College.

1870.

Balcke, Wm., A. B., A. M., Supt., Altenheim.....Quincy, Ill.
